

This year, at the Presbyterian General Assembly, LGBTQ people, and allies, of the upcoming generation will claim their birthright as members of a just and inclusive church.

Through positive, life-giving direct action **New Church (R)evolution** will be the church we want to see, as we invite the PCUSA to have the courage to join us in living into freedom and justice.

Studies consistently show that people under 35 have heard the gospel message and support the inclusion of all believers, LGBTQ or otherwise. So while some people continue to use tactics to ensure exclusion, the next generation has already decided for the full equality of all people.

We need you!

But wait! Who are YOU?

YOU:

- ⊕ In your 20's (give or take)
- ⊕ Maybe in college or seminary
- ⊕ Maybe serving the church in some other way
- ⊕ Presbyterian or concerned about the future of the mainline Protestant church
- ⊕ Definitely wanting to live on the edge of your faith and make a difference

When do we need YOU?

From **April through June**, we will be holding regular conference calls and planning sessions in order to imagine what the **New Church (R)evolution** will look like. During this time (in good Presbyterian fashion) we will study the history of social justice and the struggle for sexual freedom in the mainline churches.

The week of **June 15th** the **New Church (R)evolution** will begin with intensive online training sessions. We will prepare programs and develop skills as we learn about God's liberating love from faculty instructors who have pioneered the study of sexuality and religion.

June 20-28, we will descend on the General Assembly in San Jose. Through our peaceful and joyful direct actions, we will transform the church.

June 29, we will celebrate by attending Gay Pride in San Francisco. The one. The only. The one you **MUST** see at least once in your lifetime!

Housing, airfare, ground transportation, and meals will be covered. As a show of commitment we are asking each participant to help with raising funds.

By the way...who are we?

Founded in 1991, **THAT ALL MAY FREELY SERVE** commits to actively resist and transform structures and systems of injustice: to join in solidarity in making the connections with those disenfranchised by racism, classism, sexism, heterosexism, ageism, ablebodyism, gender identity oppression, eco-exploitation, militarism, and all other structures of exploitation and oppression, through the lens of our social location, and focus on the liberation of lesbian, gay, bisexual, and transgender people from religious prejudice and exclusionary church policies.

It's time for a

New Church

(R)evolution

For more than 30 years the PCUSA has excluded its lesbian, gay, bisexual, transgender, and queer (LGBTQ) members from full participation in the life of the church, including ordination and marriage.

Organizations like **THAT ALL MAY FREELY SERVE** have lobbied and pleaded with the church to stop its oppression of LGBT people.

We're so over that.

It's time for a new chapter.
It's time for a new generation.
